STILETTO™

Double Hollow Ground Tip... Initiates penetration by cutting in a forward direction which avoids deflection.

Body Fluting... Reduces drag for deeper penetration, much like the grooving on a bayonet.

CNC Crafted from solid Stainless Steel... For maximum strength and accuracy

Our 3 barb SP3 points are deep penetrating and offer tremendous holding power. Offered in fixed and detachable styles. The detachable being able to be rigged with cable or spectra with no slide ring necessary.

The wire barb Quick-Shot point is perfect for small prey offering quick fish removal.

Low Friction Break-Away... Optimized shape and sizing holds strong and rigid while penetrating but falls away freely when reversed.

Dual Cabling Options... Can utilize ball and socket for stainless cabling. The Stiletto can also be rigged with Dyneema or Spectra using the included cross pin.

BECAUSE...
YOUR FIRST SHOT COUNTS.
